

SmearR

Hematology smear maker

SmearR is the easy way to make the blood smear automatically

- With respective HgB concentration smear length can be adjusted easily with LED Bar indicator
- Tongue shape & long area of monolayer repeatedly achieved by microcontroller
- Easy cleaning of spreader
- Automatically lifting of spreader Enhance life of spreader
- Variation in speed during, touching to blood drop, ensure intact of blood morphology

TECHNICAL SPECIFICATION

Display	LED Bar Indicator
Cycle Timing	Depend on speed
Size	220cm x 100cm x 140cm
Weight	2 kg
Input	AC 100-260V-50/60/Hz
External Power Supply	DC 24V, 24W
